

10. The Nature Index journals

The current 12-month window on [nature.com/nature-index/](https://www.nature.com/nature-index/) includes data from primary research articles from the following science journals:

- ACS Nano (1732 articles)
- Advanced Functional Materials (2693 articles)
- Advanced Materials (2009 articles)
- American Journal of Clinical Nutrition (222 articles)
- American Journal of Epidemiology (61 articles)
- American Journal of Human Genetics (129 articles)
- American Journal of Obstetrics and Gynecology (126 articles)
- American Journal of Pathology (112 articles)
- American Journal of Respiratory and Critical Care Medicine (78 articles)
- Analytical Chemistry (2018 articles)
- Anesthesiology (52 articles)
- Angewandte Chemie International Edition (3057 articles)
- Annals of Emergency Medicine (75 articles)
- Annals of Family Medicine (41 articles)
- Annals of Internal Medicine (93 articles)
- Annals of Neurology (169 articles)
- Annals of Surgery (13 articles)
- Annals of the Rheumatic Diseases (107 articles)
- Applied Physics Letters (2180 articles)
- Archives of Physical Medicine and Rehabilitation (140 articles)
- Arthritis & Rheumatology (7 articles)
- Astronomy & Astrophysics (172 articles)
- Blood (142 articles)
- Brain (137 articles)
- British Journal of Surgery (81 articles)
- Cancer Cell (103 articles)
- Cancer Research (259 articles)
- Cell (276 articles)

- Cell Host & Microbe (111 articles)
- Cell Metabolism (122 articles)
- Cell Stem Cell (73 articles)
- Chemical Communications (2409 articles)
- Chemical Science (1247 articles)
- Chest (137 articles)
- Circulation (123 articles)
- Clinical Infectious Diseases (294 articles)
- Critical Care Medicine (39 articles)
- Current Biology (467 articles)
- Developmental Cell (150 articles)
- Diabetes Care (193 articles)
- Earth and Planetary Science Letters (398 articles)
- Ecology Letters (140 articles)
- Environmental Health Perspectives (97 articles)
- Environmental Science and Technology (1515 articles)
- European Heart Journal (38 articles)
- European Physical Journal C (1149 articles)
- European Urology (30 articles)
- Gastroenterology (93 articles)
- Genes & Development (44 articles)
- Genome Research (140 articles)
- Geochimica et Cosmochimica Acta (371 articles)
- Geology (230 articles)
- Geophysical Research Letters (1553 articles)
- Gut (84 articles)
- Hepatology (121 articles)
- Human Reproduction (188 articles)
- Immunity (149 articles)
- Inorganic Chemistry (2016 articles)
- International Journal of Epidemiology (66 articles)
- International Journal of Obesity (125 articles)
- JAMA Internal Medicine (64 articles)
- JAMA Pediatrics (67 articles)
- JAMA Psychiatry (80 articles)
- JAMA Surgery (94 articles)
- JAMA: The Journal of the American Medical Association (136 articles)
- Journal of Biological Chemistry (1103 articles)
- Journal of Bone and Joint Surgery-American Volume (164 articles)
- Journal of Cell Biology (190 articles)
- Journal of Clinical Endocrinology & Metabolism (283 articles)
- Journal of Clinical Investigation (323 articles)
- Journal of Clinical Oncology (156 articles)

- Journal of Experimental Medicine (134 articles)
- Journal of Geophysical Research: Atmospheres (718 articles)
- Journal of Geophysical Research: Solid Earth (575 articles)
- Journal of Hepatology (137 articles)
- Journal of High Energy Physics (2567 articles)
- Journal of Infectious Diseases (174 articles)
- Journal of Neuroscience (564 articles)
- Journal of Physiology (141 articles)
- Journal of Thoracic and Cardiovascular Surgery (75 articles)
- Journal of the American Academy of Child and Adolescent Psychiatry (35 articles)
- Journal of the American Academy of Dermatology (80 articles)
- Journal of the American Chemical Society (2546 articles)
- Journal of the American College of Cardiology (195 articles)
- Journal of the American Geriatrics Society (252 articles)
- Journal of the American Society of Nephrology (115 articles)
- Journal of the National Cancer Institute (119 articles)
- Kidney International (92 articles)
- Macromolecules (892 articles)
- Molecular Cell (237 articles)
- Molecular Psychiatry (316 articles)
- Monthly Notices of the Royal Astronomical Society: Letters (170 articles)
- Nano Letters (1316 articles)
- Nature (1136 articles)
- Nature Biotechnology (165 articles)
- Nature Cell Biology (116 articles)
- Nature Chemical Biology (155 articles)
- Nature Chemistry (179 articles)
- Nature Climate Change (106 articles)
- Nature Communications (7578 articles)
- Nature Genetics (172 articles)
- Nature Geoscience (132 articles)
- Nature Immunology (117 articles)
- Nature Materials (147 articles)
- Nature Medicine (225 articles)
- Nature Methods (154 articles)
- Nature Nanotechnology (174 articles)
- Nature Neuroscience (159 articles)
- Nature Photonics (129 articles)
- Nature Physics (241 articles)
- Nature Structural & Molecular Biology (151 articles)
- Neuron (198 articles)
- Ophthalmology (94 articles)

- Organic Letters (1699 articles)
- PLOS Biology (281 articles)
- PLOS Genetics (376 articles)
- PLOS Medicine (161 articles)
- Pediatrics (61 articles)
- Physical Review A (163 articles)
- Physical Review B (782 articles)
- Physical Review D (219 articles)
- Physical Review Letters (1935 articles)
- Physical Review X (137 articles)
- Proceedings of the National Academy of Sciences of the United States of America (2963 articles)
- Proceedings of the Royal Society B (478 articles)
- Radiology (152 articles)
- Science (580 articles)
- Science Advances (2055 articles)
- Science Translational Medicine (242 articles)
- The Astrophysical Journal Letters (681 articles)
- The BMJ (122 articles)
- The EMBO Journal (244 articles)
- The ISME Journal: Multidisciplinary Journal of Microbial Ecology (167 articles)
- The Journal of Allergy and Clinical Immunology (123 articles)
- The Journal of Physical Chemistry Letters (1365 articles)
- The Lancet (154 articles)
- The Lancet Diabetes & Endocrinology (40 articles)
- The Lancet Global Health (100 articles)
- The Lancet Neurology (38 articles)
- The Lancet Oncology (95 articles)
- The Lancet Psychiatry (45 articles)
- The New England Journal of Medicine (207 articles)
- The Plant Cell (202 articles)
- Thorax (55 articles)
- Water Research (1198 articles)
